

## Design your own *Cogheart Adventures* Book Cover

Below you can see how the *Moonlocket* cover was designed by Kath Millichope and illustrated by Becca Stadlander...

Have a go at designing your own *Cogheart Adventures* book cover.

You need to decide on a strong background colour for your cover.

You will need a catchy one word title.

And a big circular object in the centre of the cover that relates to that title.

You will also need to feature Robert and Lily and Malkin doing something really adventurous.

Add a few mechainimals and airships, maybe some buildings showing where the story is set. And perhaps some clouds and a few sparkly stars.

Then you will need to add the *Cogheart* logo at the top.

Finally you will need to put the authors name on the cover, at the bottom. That's me, unless you plan on writing this book, in which case go ahead and add your name instead!

A COGHEART ADVENTURE
